PROFILE

DevOps Engineer with over 5 years of experience in designing, deploying, and maintaining containerized applications in on-prem environments. Specialized in CI/CD pipeline creation, automation, infrastructure management, and database replication. Currently working in the fintech industry with a strong focus on DevOps tooling, and container orchestration.

KEY SKILLS

- **Tools:** Ansible, Git, Artifactory, Azure DevOps, Jenkins
 - **Messaging Systems:** RabbitMQ, Kafka
 - **Containers & Orchestration:** Docker, Podman, Kubernetes
 - **Cloud Platforms:** AWS
 - **Scripting Languages:** Python, Bash
 - **Microservices:** Apache Camel, Spring Boot
 - **Databases:** MongoDB, Cassandra, MariaDB
 - **Web Servers:** HAProxy, NGINX
 - **Monitoring & Logging:** Nagios, Prometheus, Grafana, InfluxDB, Elasticsearch, Kibana
 - **OS & Networking:** Linux (RHEL, Ubuntu, CentOS), LVM, tcpdump
-

PROFESSIONAL EXPERIENCE

BACKOFFICE IT SOLUTIONS Pvt. Ltd.

April 2022 - Present

- Designed and maintained CI/CD pipelines using Azure DevOps for multiple microservices projects.
- Deployed and managed containerized services using Docker Swarm.
- Led the Proof of Concept (PoC) and successful migration of services from Docker Swarm to Kubernetes.
- Automated infrastructure provisioning and configuration using Ansible and Bash scripting.
- Migrated critical server infrastructure from CentOS 7 to Oracle Linux 8.
- Managed database systems (MongoDB, Cassandra) with disaster recovery and replication setups.
- Set up and maintained monitoring using Prometheus, Grafana.
- Managed distributed message queues using Kafka and RabbitMQ, including topic setup and monitoring.
- Installed and configured essential packages and system dependencies on Linux servers.

Keen and Able Computers Pvt. Ltd.

Jan 2019 - April 2022

Fino Payment Bank

- Automated infrastructure tasks using Ansible and shell scripting; managed CI/CD using Jenkins and GitLab.
- Configured and maintained artifact repositories using Artifactory.
- Developed and deployed microservices; handled troubleshooting and root cause analysis.
- Managed service deployments and monitoring in JBoss Fuse environments.
- Integrated SonarQube for code quality checks and used JMeter for performance testing.
- Administered HAProxy for traffic load balancing.
- Configured messaging queues in ActiveMQ.

Client: TAHAL

- Developed and containerized web applications using Angular, HTML, and Docker.
- Collaborated on front-end and back-end integration to meet project specifications.

Client: Kanpur Smart City

- Designed and deployed microservices supporting REST and SOAP APIs.
 - Implemented containerized services on Docker, enabling modular and scalable deployment.
-

EDUCATION & CERTIFICATIONS**Bachelor of Technology**

Computer Engineering

Babasaheb Bhimrao Ambedkar University

Intermediate

St. Antony's Inter College

High School

Lucknow Public College

AWARDS

- Outstanding Accomplishment Award – Backoffice IT Solutions
 - 2nd Prize – Company Hackathon, Keen & Able Computers
 - Top Consultant Award – Fino Payments
